WORK EXPERIENCE

CODE ETERNITY

Web Developer Intern

April 2025 - July 2025

- Built multiple full-stack web applications including:
 - [AI Lawyer](#): An AI chatbot for Indian legal queries with PDF upload and summarization features.
 - [Cryptalk](#): A secure messaging app with end-to-end encryption, developed using React, Node.js, Socket.IO, and MongoDB.
 - [Style Sphere](#): A full-featured e-commerce platform with custom frontend, backend, and database integration.
- Gained hands-on experience in React.js, Express.js, MongoDB, Tailwind CSS, and RESTful APIs.
- Improved skills in frontend design, backend development, database management, and integrating AI/real-time features.

SKILLS

- Language :** C/C++, JavaScript
- Frameworks & Library:** React.js, Express.js, Node.js, Tailwind CSS
- Database:** MongoDB
- IT Constructs:** Data Structure & Algorithm, DBMS, OS, OOPS, API Integration
- DevOps & Deployment:** Vercel, Render, Netlify, Git, GitHub

PROJECTS

AI Lawyer ([Project Link](#))

May 2025

- Developed an AI-based legal chatbot that answers questions related to the **Indian Constitution**.
- Added a feature to **upload PDF or DOC** files and get quick summaries or ask questions based on the document content.
- Used React.js and Tailwind CSS to build a **clean**, responsive, and user-friendly interface.
- Integrated Gemini API with Python for document reading, summarization, and AI responses, enhancing skills in AI tools, file handling, and real-time frontend interactions.

Dev Detective ([Project Link](#))

February 2025

- Built a responsive web app to fetch and display GitHub user profiles using **GitHub API**.
- Designed an intuitive UI with HTML, CSS, and JavaScript, including **dark mode** toggle functionality.
- Integrated **real-time search** functionality to display user details such as bio, repositories, followers, and more.
- Built a responsive Dev Detective app with smooth API integration, error handling, and dynamic UI using JavaScript and DOM manipulation.

Cryptoplace ([Project Link](#))

September 2024

- Developed Cryptoplace web application using **React.js**, integrating a **CoinGecko API** to fetch and display comprehensive data on various **cryptocurrencies**.
- Implemented dynamic crypto trend visualization using React Google Charts and React Router DOM for seamless navigation, with efficient search for quick access to coin data.

EDUCATION

- UNSIET, Jaunpur**
Bachelor of Technology (B.Tech.) in Information Technology | CGPA: 7

2021-2025

CERTIFICATES

- Data Structure & Algorithm** by Code Help (Love Babbar)
- Namaste JavaScript** by NamasteDev
- Responsive Web Design** by freeCodeCamp
- Web Development [MERN]** by Code Help (Love Babbar)
